Description of fiscal impact: HB 80 clarifies the license requirement for electrical work involving 90 volts or less of alternating current or direct current and removes the ability to charge a fine for a citation for failure to display a plumber's or electrician's license or proof of licensure if the licensee produces proof of licensure to the Department of Labor and Industry within five days of the citation.

FISCAL ANALYSIS

Assumptions:

1. The Department of Labor and Industry does not anticipate a change in fine revenue.
2. The number of electrician licenses issued is not anticipated to change with the 90 volt or less exemption.
